

**REMARKS**

The foregoing changes in the description of Figs. 2, 3 and 4A reflect the changes in the formal drawing filed on December 2, 2004, making the text larger to meet Patent and Trademark Office size requirements, with an attendant use of additional sheets to present the drawings.

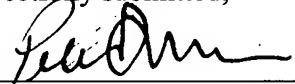

The foregoing changes in the specification reflect those changes in the numbering of the figures.

No new subject matter is introduced.

In view of the above amendment, applicant believes the pending application is in condition for allowance.

Dated: February 8, 2005

Respectfully submitted,

By   
Peter J. Manus
